

What is CloseKnit?

Virtual-first care centered around you

We're a virtual-first primary care practice that you can connect with 24/7. That means we treat most illnesses over video. Instead of going to a doctor's office, your visit can be done online — anytime, anywhere, 24/7/365.

Primary Care services include:

- Well care, preventive, and sick visits
- Mental health counseling
- 24/7 chat with your dedicated Care Team
- Health Guides who can answer health, benefits, and billing questions

Urgent Care services include:

- Same-day care whether CloseKnit is your primary care provider or not
- Visits for common conditions such as cold/flu symptoms and minor injuries
- Pediatric urgent care for dependents ages 2-17
- 24/7 access anywhere in the U.S.

Am I eligible?

There are only two requirements for registration:

1. 18+ years old and dependents 2-17 for urgent care services.
2. Enrolled in a CareFirst BlueCross BlueShield health plan
(Some exclusions may apply)

How do I get started?

1

Register for CloseKnit

Scan this QR code to get started.

2

Create your profile

Provide brief health information that will help your Care Team serve you best.

3

Book an Appointment

Schedule a convenient date and time for your visit, including weekends.
