VA Coverage for the Diagnosis and Treatment of Autism Spectrum Disorder - Effective January 1, 2020

Mandate summary (VA HB2577)

Beginning January 1, 2020, for new and renewing 51+ fully insured business, health insurers are required to provide coverage for the diagnosis and treatment of autism spectrum disorder for individuals of **any** age. Formerly coverage was limited to members age two through 10. Preauthorization requirements, and the annual benefit maximum of \$35,000 for applied behavior analysis, remain in effect.

Effective date and impacted business

January 1, 2020 for all 51+ fully insured business, including grandfathered; both new and renewing business.
