Date: November 14, 2019

Market: MD ACA 2-50 Group

## Notice to November and December Renewal Groups

CareFirst BlueCross BlueShield (CareFirst) identified certain errors within benefit descriptions for 2-50 renewal packets. As a result, we are mailing a [notice](#) to 478 November and December renewing groups to outline the impacted plan options and the correct benefits. Other plan documents for these groups are accurate, including their benefit summaries and contracts. Please have groups refer to their benefit summaries and contracts as the source for all final benefits and provisions under the Plan.
