Better Together Raises \$1.2M to Support the COVID-19 Vaccination Effort

We asked our associates, community leaders and businesses to step forward in support of the COVID-19 immunization effort by signing the Better Together Pledge. Because of everyone who took the pledge, our communities' vaccination efforts were stronger and better positioned to make a meaningful difference for our future and the future of those we love.

Overall, 4,421 members of the CareFirst workforce and 766 organizations joined in our pledge, raising a total of \$1.2 million. We are better together.
